Lab 8

Test Cases

The screenshot shows the Postman application interface. On the left, the sidebar displays 'Paula's Workspace' with various collections, environments, and flows. The main workspace shows a POST request to 'http://localhost:3000/posts'. The 'Headers' tab is selected, showing a single header 'Content-Type: application/json'. Below the request, the response status is '201 Created' with a response time of '4 ms' and a size of '260 B'. A message 'Response not stored' is displayed, along with a note: 'Save response setting must have been off when this request was sent.' At the bottom, there are navigation icons for Cloud View, Find and replace, Console, Terminal, and links to Runner, Start Proxy, Cookies, Vault, Trash, and Settings.

The screenshot shows the Postman interface with the following details:

- Left Sidebar:** "Paula's Workspace" with sections for Collections, Environments, History (selected), Flows, and Files (BETA).
- Request URL:** `localhost:3000/posts`
- Method:** `POST`
- Body (raw JSON):**

```
1 {
2   "title": "My First Post",
3   "content": "Hello world!"
4 }
```
- Response Status:** `201 Created`
- Message:** "Response not stored" and "Save response setting must have been off when this request was sent."
- Bottom Bar:** Includes Cloud View, Find and replace, Console, Terminal, Runner, Start Proxy, Cookies, Vault, Trash, and other settings.

Lab 9

The screenshot shows the Postman interface with the following details:

- Left Sidebar:** "Paula's Workspace" with sections for Collections, Environments, History (selected), Flows, and Files (BETA).
- Request URL:** `http://localhost:3000/courses`
- Method:** `POST`
- Body (raw JSON):**

```
1 {
2   "title": "Web",
3   "description": "Learn backend development",
4   "instructor": "Paula Emil",
5   "price": 300,
6   "category": "Web Development"
7 }
```
- Response Status:** `201 Created`
- Message:** "Response not stored" and "Save response setting must have been off when this request was sent."
- Bottom Bar:** Includes Cloud View, Find and replace, Console, Terminal, Runner, Start Proxy, Cookies, Vault, Trash, and other settings.

The screenshot shows the Postman application interface. On the left, there's a sidebar with sections for Collections, Environments, History (which is selected), Flows, and Files (BETA). Below these are Cloud View, Find and replace, Console, and Terminal. The main area has tabs for Home, Workspaces (selected), and API Network. A search bar at the top right says "Search Postman". Below the search bar are icons for Invite, Upgrade, and environment selection. The main content area shows a request to "http://localhost:3000/courses" with a "GET" method. The "Body" tab is selected, showing the response body: "Response not stored". The status bar at the bottom indicates "200 OK" with a response time of 117 ms and a size of 795 B.

This screenshot shows the same Postman interface as the first one, but with a PUT request instead. The URL is "http://localhost:3000/courses/69303b73b2b2f2da9a2d2660". The "Body" tab is selected, displaying a JSON payload:

```
1 {
2   "Description": "Web React",
3   "price": 250,
4   "title": "Updated Course Title"
5 }
```

The status bar at the bottom indicates "200 OK" with a response time of 114 ms and a size of 373 B.

The screenshot shows the Postman application interface. On the left, there's a sidebar with sections for Collections, Environments, History (which is selected), Flows, and Files (BETA). The main area displays a search history and a list of recent requests. A specific request is highlighted: a DELETE operation to `http://localhost:3000/courses/69303b73b2b2f2da9a2d2660`. The request details show it's a DELETE method with the URL above. Below the URL, there are tabs for Docs, Params, Authorization, Headers (6), Body, Scripts, and Settings. The Headers tab is active, showing a table with one row: Key (Key) and Value (Value). The Body tab is also visible. At the bottom of the request details, there are tabs for Body, Cookies, Headers, and Test Results, with Body being the active tab. The response section shows a green `200 OK` status with a time of `114 ms` and a size of `263 B`. Below the status, it says "Response not stored" and "Save response setting must have been off when this request was sent." At the bottom of the main window, there are buttons for Runner, Start Proxy, Cookies, Vault, Trash, and other settings. The top right corner has an "Upgrade" button and a "No environment" dropdown.
